

BUSINESS REQUIREMENTS

To develop a new approach to medication management through reminders, social feedbacks, financial incentives and automatic refills for medication adherence.

Our Solution

- ❑ Hardware design
- ❑ Development of Pill cap and Gateway firmware
- ❑ Communication protocol design and implementation
- ❑ Production floor automation firmware and software
- ❑ High Level Data Security and design conforming to HIPPA
- ❑ Mobile Integration
- ❑ Server side programming
- ❑ Sales force integration

Technology Stack

C, AVR Studio, JTAG toolkit, Salesforce, Python, C++, production test jigs

Benefits
